Subject: WIFIA releases

Why do these not look correct to me? I don't know how far \$55 and \$62 loans will go. Or why they would want to apply for a \$251 or \$343 loan. The formatting isn't uniform either. Guess I will continue to have to read them all and not just a template.

The city of Atlanta is invited to apply for a \$55 WIFIA loan to go towards the \$113 million estimated cost of the North Fork Peachtree Creek Tank and Pump Station project. DeKalb County is invited to apply for a \$251 WIFIA loan to go towards the towards the \$526 million estimated cost of the Priority Areas Sewer Assessment & Rehabilitation Program Consent Decree Packages project

North Miami Beach Water is invited to apply for a \$62 WIFIA loan to go towards the \$126 million estimated cost of the Regional Potable Water Improvements project. Miami-Dade County is invited to apply for a \$343 WIFIA loan to go towards the towards the \$699 million estimated cost of the Wastewater Treatment Plant Electrical Distribution Building Upgrade
